

IT Refurbishment Technician

Repair and Share Foyle (Community Interest Company)

8 hours per week | Fixed-term (6 months) | £15 per hour

Are you passionate about technology, sustainability, and making a difference in your community?

Repair and Share is looking for a motivated IT Refurbishment Technician to join our team. This is an exciting opportunity to play a hands-on role in reducing e-waste and tackling digital exclusion by helping to bring donated laptops and tech back to life for people who need them most.

About the Role

You will work closely with our E-waste Coordinator and dedicated team of volunteers to receive, assess, and refurbish donated laptops. Your work will ensure devices are restored to a high standard and ready for redistribution across the community.

The role will be delivered across **two working days per week (8 hours total)**, with **availability on Thursdays required** to support project delivery.

What You'll Be Doing

- Sourcing, receiving and logging donated laptops and IT equipment
 - Assessing devices for refurbishment
 - Carrying out basic repairs, upgrades, and software installation
 - Securely wiping and resetting devices
 - Preparing laptops to a high standard for reuse
 - Supporting and working alongside volunteers
 - Keeping the workspace organised and safe
-

About You

- You have a good basic understanding of IT hardware and software
 - You're practical, organised, and detail-oriented
 - You enjoy problem-solving and hands-on work
 - You can work both independently and as part of a team
 - You have an interest in sustainability, reuse, or community-focused work
-

Why Join Us?

This role is a great opportunity to gain experience in IT refurbishment while contributing to a meaningful project that supports people in your community and helps reduce environmental impact.

How to Apply

To apply, please submit your CV and a short covering statement to caroline@repairsharefoyle.org outlining your interest in the role.

Application deadline: Friday 22nd May
